METTLER TOLEDO's capabilities and competencies across
the battery value chain

METTLER TOLEDO

We are a leading global manufacturer of precision instruments and services for use in manufacturing and laboratories

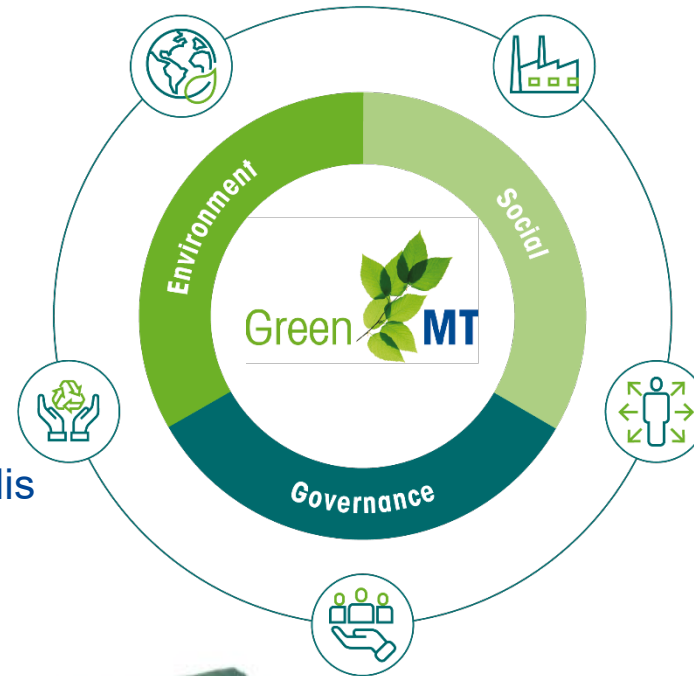

- Worldwide presence with >10,000 customer-facing support personnel
- Operate in 115 countries
- Strategically located R&D, manufacturing, and sales/service offices

GreenMT™ Environmental, Social and Governance priorities are a core Mettler-Toledo value

- Our 5 pillars of Environmental, Social, and Governance (ESG) goals address the priorities of our customers
- Battery manufacturers are building their brands on sustainability and are actively working towards net-zero
- Mettler-Toledo is working towards the same goals

ecovadis

Mettler-Toledo is ranked in top 7% of companies rated by EcoVadis

Efficient Use of Resources

Keep our operations sustainable over the long-term

Sustainable Products and Services

Help our customers to be sustainable in their businesses

Responsible Supply Chain

Promote global best practices within our supply chain

Engaged Employees

Attract, develop and retain the best employees

Good Corporate Governance

Follow governance best practices

Digital, intelligent sensors provide advanced diagnostics and true predictive maintenance

Liquid Analytics

Automated Controllers

Gas Analytics

Pure Water Analytics

Efficient sample analysis and support of customer's regulatory and documentation requirements

Analytical Instruments

Laboratory Weighing

Material Characterization

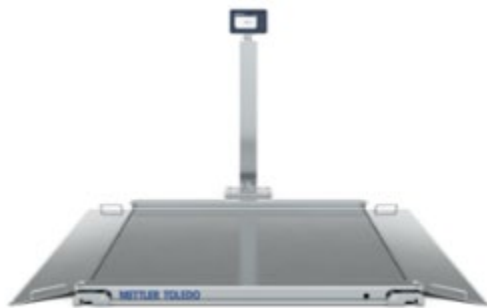

Software

Tailored weighing solutions for production, transport and logistics

Floor and Bench Scales

Weigh Modules/Load Cells

Truck/Rail Scales

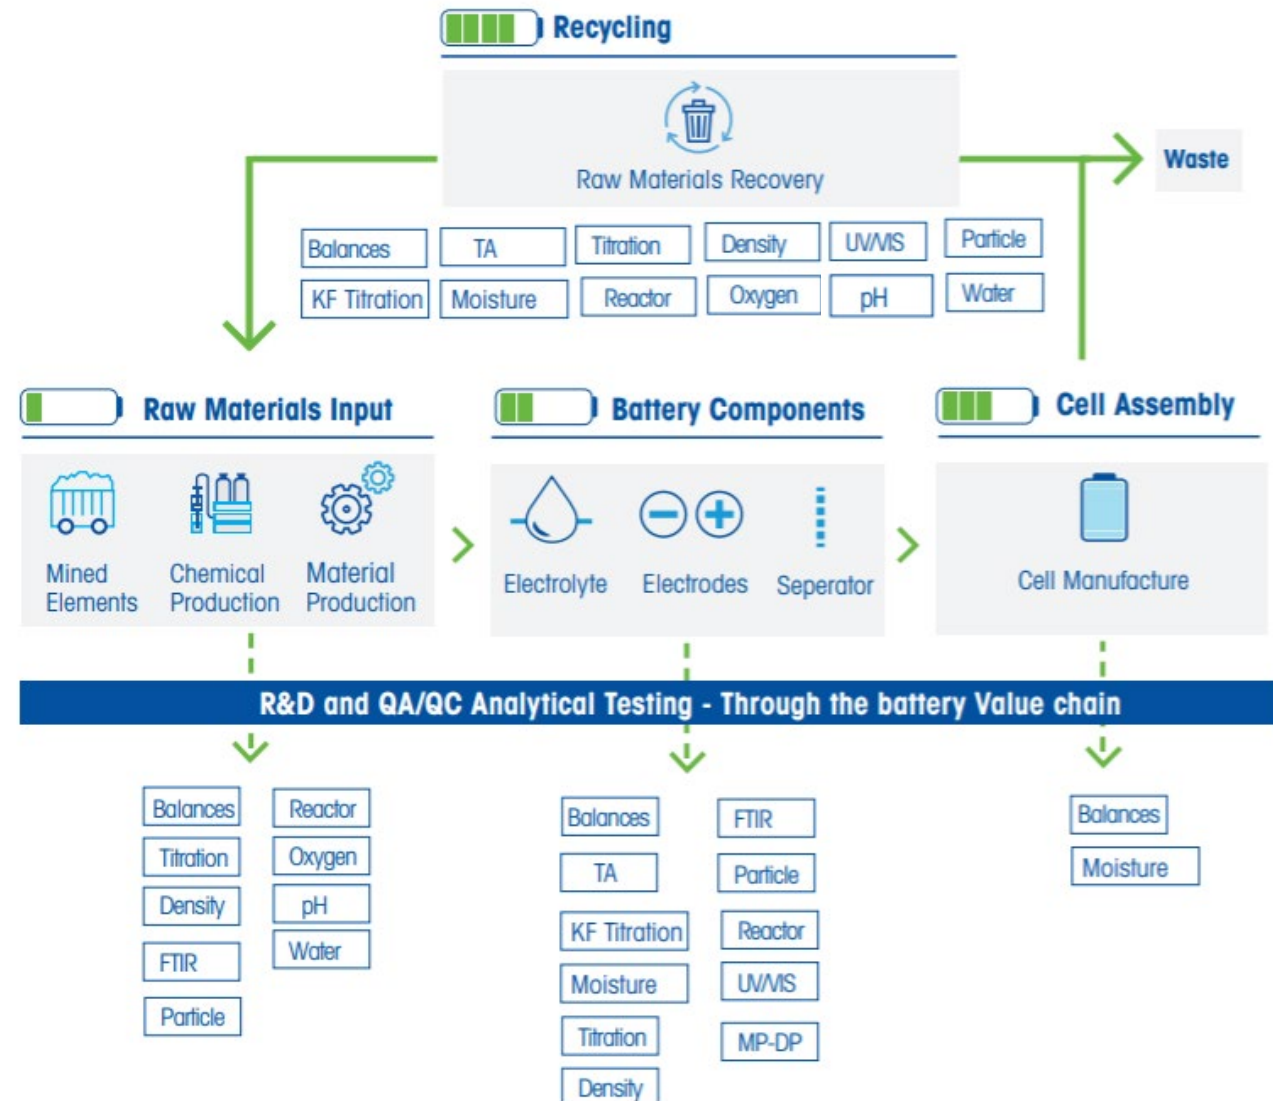

Pallet Weighing

From mining to recycling – we provide measurement solutions in all battery manufacturing processes

METTLER TOLEDO solutions help to:

- Streamline processes
- Enhance productivity with automation
- Achieve accurate and reliable measurements
- Enable plants and personnel to operate safer
- Reduce maintenance requirements
- Minimize waste and comply with regulatory requirements
- Optimize costs and reduce waste

Thank You!
