TITAN LITHIUM

Powering the Future of Battery -Grade Lithium

Titan Lithium, the flagship refinery of RK Group, is a cornerstone of the global lithium supply chain, strategically located in KEZAD Industrial Zone, Abu Dhabi, UAE. With a 120,000-ton LCE capacity, this state-of-the-art facility produces Battery -Grade-purity Lithium Carbonate & Lithium Hydroxide, meeting the surging demand from Battery Manufacturers and OEMs worldwide. Spanning 3 million+ sq. ft., Titan is revolutionizing lithium refining for the EV and renewable energy sectors, ensuring a reliable, high-quality supply for a sustainable future.

Phase 1: 30,000 TPA
Production : Q4 2026

Phase 2: Additional 90,000 TPA
Production : Q4 2028
