

ARBIN

INSTRUMENTS

The Pinnacle Of
Battery Test Equipment

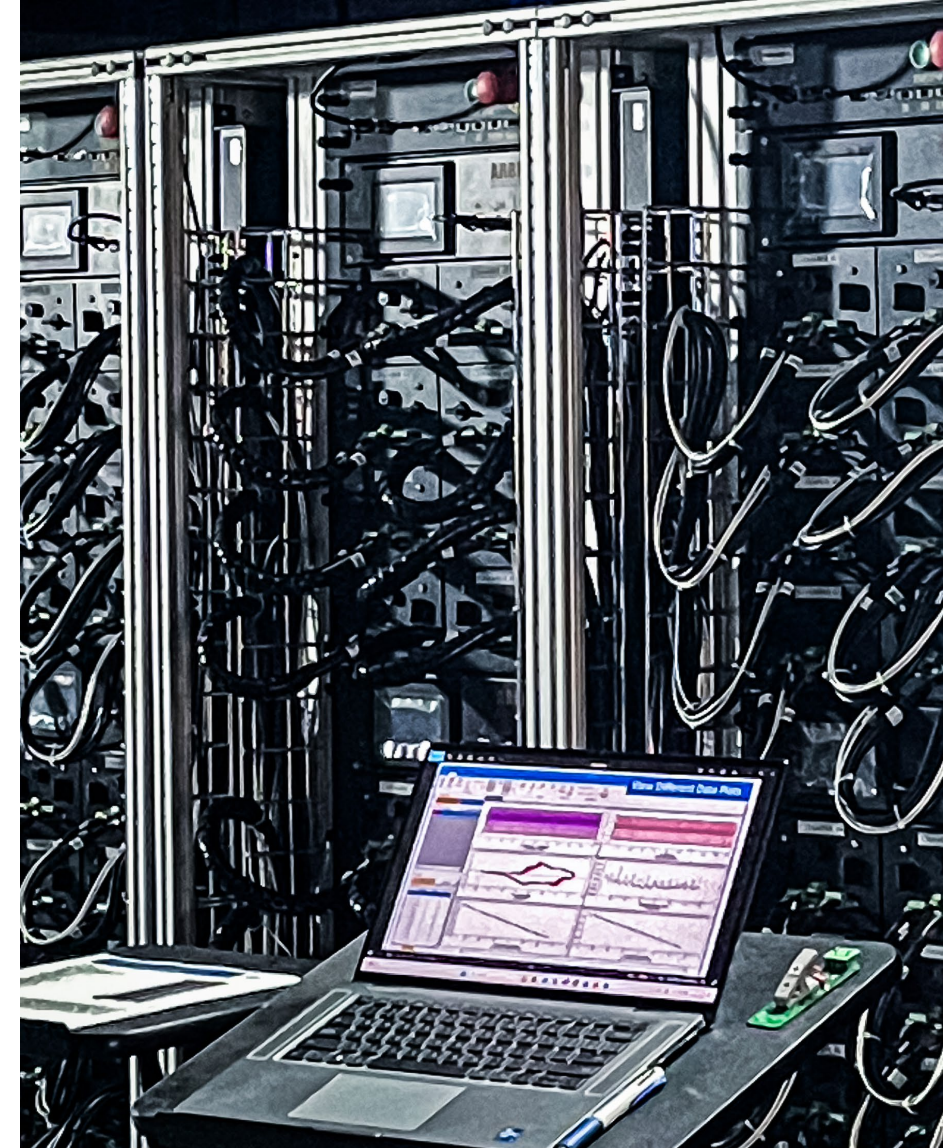

Turn-Key Solution arrives with test channels fully integrated with Multi-Zone Temperature Chambers

Flexibility to test 18650, 21700, 26650 up to 16 A continuously or 20 A for 1 minute

32 channels

4 current ranges

100ppm Precision

LBTS –TC Series

Product Highlight

Reduce Energy Consumption and HVAC load

- 85% regenerative efficiency
- 6V, 10V, or 20V configurations
- 2 Current Ranges per Channel; 3 ranges when in parallel
- Parallel any number of channels up to 1600A
- Optional ducted air exhaust

48 channels

100ppm Precision

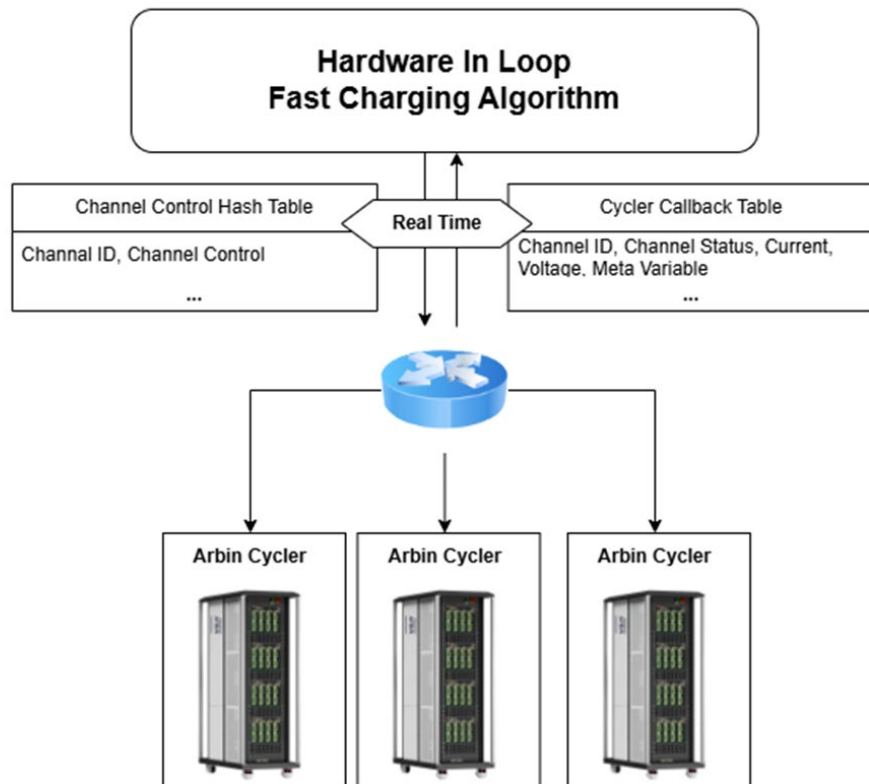

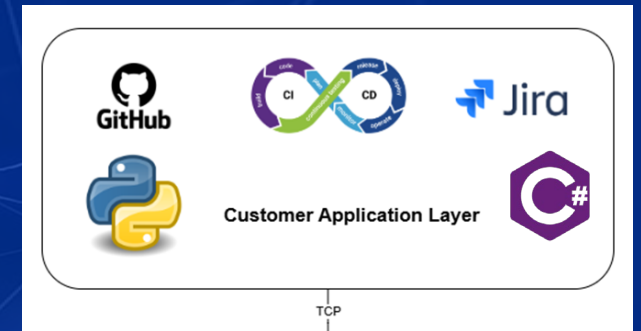

RBT -41 Series

Product Highlight

API Integration Arbin CTI/Arbin Client/Arbin Driver

- Automation
- Application
- Real Time Data Pipeline
- Real Time Channel Control

Research and Development Partnership

- Advanced safety monitoring & alerts
- Cell comparison testing
- Formation procedure optimization
- Novel applications
