

INTRODUCING

C-BATT™

Who We Are & What We Are Doing

Our Product – Obsidia™

- A High-Performance Composite
 - **Si-O-C/C polymer derived ceramic (PDC) based Anode**
- Capacity Exceeds Graphite
- Low Volume Expansion
- Fully Domestic Supply Chain
- Easily Scalable & Cost Competitive

Our Team

- **Our foundation:** a successful materials first company
 - CEO Bill Easter, Bell Labs alum, with >65 Patents
 - Established business in PDC products
 - >10 years of battery application R&D
- **Our future:** partnership with the carbon supply chain
 - Backed by CONSOL Innovations, a wholly-owned subsidiary of Core Natural Resources, the largest coal company in the US.
